

A Sapphire Tribute Fund is a precious way to remember someone special, while supporting our vital work.

More and more people are choosing to remember someone close to them by making a gift in their memory to Chest Heart & Stroke Scotland, and then setting up a Sapphire Tribute Fund in their name. These are deeply personal and meaningful gifts.

We understand only too well the impact of losing someone special. So, as you come to terms with your loss, we hope you will take some comfort from knowing that making a memorial gift helps us provide real, long-term benefit to the people we support.

How a Sapphire Tribute Fund works

At your request, we can set up a Sapphire Tribute Fund, named in honour of your loved one. If you have already sent us a donation in memory of someone special, this gift can be used to start the Fund. You, your family or friends may then go on to support it in any way you choose, helping it to grow.

How your donations will help

All donations raised through a Tribute Fund are used to improve the quality of life for people in Scotland affected by chest, heart and stroke illnesses.

We fund life-changing medical research, influence public policy, provide high quality advice and information, as well as widespread support in the community. Through your generous support you will be helping others to access our quality services, reducing isolation and improving lives every day while offering hope for years to come.

If you feel ready to set up a Tribute Fund, simply complete our form and we will send you everything you need. We also offer the opportunity to set up a secure web page dedicated to your Fund which you can control.

www.chss.org.uk/sapphiretributefunds

This offers a permanent place for reflection, where you can invite friends and family to share thoughts, photos and memories.

We realise that the decision on whether or not to set up a Tribute Fund is a very personal one. If you would like more information, please contact:
