Stroke Training Courses

For Health & Social Care Staff

Introductory Course in Stroke Care (Part 1)

Target Audience:

All health and social care staff who work with stroke patients and their carers.

Aim of Course:

To facilitate the learning of core skills and knowledge of health and social care staff working with people affected by stroke.

Outcomes:

By the end of the course participants will:

- have increased their knowledge and skills about stroke
- be able to select and apply this to their own work practice
- have refined the learning into specific objectives
- have identified areas where further learning needs to be developed
- have examined their own work practice.

Outline of Course Programme:

Day 1	Day 2	Follow Up Day
<ul style="list-style-type: none"> • What is a Stroke? • Knowledge and Skills Workshop • Organisation of Stroke Services • Nutrition & Stroke • Activities of Daily Living & How to Help 	<ul style="list-style-type: none"> • Swallowing & Stroke • Communication & Stroke • Experiencing Stroke Workshop • Normal Movement Therapy • Assessment of Physical Ability 	<ul style="list-style-type: none"> • Managing Challenging Behaviour • Nursing Role and Management • Continence Promotion & Management After Stroke • Team Working • Personal Skills & Approaches • Spiritual Care

Intermediate Course in Stroke Care (Part 2)

Target Audience:

All health and social care staff who have completed the Introductory Course in Stroke Care (Part 1) or who wish to expand on their core knowledge and skills.

Aim of Course:

To further build on core skills and knowledge of health and social care staff working with people affected by stroke.

Outcomes:

By the end of the course participants will have:

- examined and reflected on their knowledge and skills about stroke
- increased their core knowledge and skills about stroke from the Introductory Course (Part 1) if applicable
- identified areas where further learning is required
- identified areas in their own clinical practice where improvements/changes would be beneficial.

Outline of Course Programme:

Day 1	Day 2	Follow Up Day
<ul style="list-style-type: none"> • Stroke Classification and Medical Assessment • Living with Aphasia • Knowledge and Skills Workshop • Enteral Feeding • Skin Care After Stroke 	<ul style="list-style-type: none"> • Perceptual and Cognitive Problems after Stroke • Identifying the Issues of Stroke • Physical Management of Stroke • Hospital to Home • Psychological Aspects of Stroke 	<ul style="list-style-type: none"> • Caring for the Carers • Effects of the Environment • Ethical Issues • Sexuality After Stroke • Interpersonal Skills and Values • Team Working • Spiritual Care

Advanced Study Days

These are aimed at experienced health and social care staff working with stroke and/or those who have completed the Introductory Course (Part 1) and Intermediate Course (Part 2), if appropriate.

Specifically Designed Study Days

These can be organised to address the learning needs of particular staff groups.
