

Scottish Government / Chest Heart & Stroke Scotland

Stroke Innovation Awards

This award is aimed at nurses and AHPs who can apply for funding of **up to £5,000** for a stroke-specific project.

The **Stroke Innovation Awards** aim to inspire and nurture innovative ideas, empowering stroke practitioners to lead developments and make change happen.

Applications should reflect one or more of the following themes:

- New or novel approaches
- Developments / improvements in practice or services
- Professional team working or agency partnership working
- Service user involvement
- Enhancement of quality through evaluation processes

Projects that assist with implementation of the stroke actions from 'Better Heart Disease and Stroke Care Action Plan' (Scottish Government, 2009) will be given priority.

Not considered under the award are research studies; personal development activities (e.g. to fund a degree module); and funded staff **salaries**, time or sessions.

Applicants must have the support of their line manager and local Stroke Managed Clinical Network. Awards are considered every six months.
